

**Jefferson-Lewis BOCES: School Completion Strategies**  
**September 28, 2006**

**School completion strategies**

**Alternative education (1):** Expand current and implement new diploma-based alternative education programs.

**Career and technical education (2):** Implement career awareness and technical education programs targeting at-risk students.

**Culture (3):** Implement strategies to build a positive, caring school climate where all students and staff feel safe, respected and valued.

**Curriculum (4):** Expand the curricula offered both to address the concerns of at-risk students and to encourage their academic engagement.

**Early identification & intervention (5):** Use a locally developed data process to identify at-risk students and then implement intervention services accordingly.

**Extracurricular activities (6):** Implement a broad range of extracurricular activities that address students' interests and talents so that at-

risk students can participate fully in the school community.

**Family engagement (7):** Increase opportunities for open communication with families of at-risk students.

**Innovative credit offerings (8):** Offer students innovative means of earning credits toward graduation requirements.

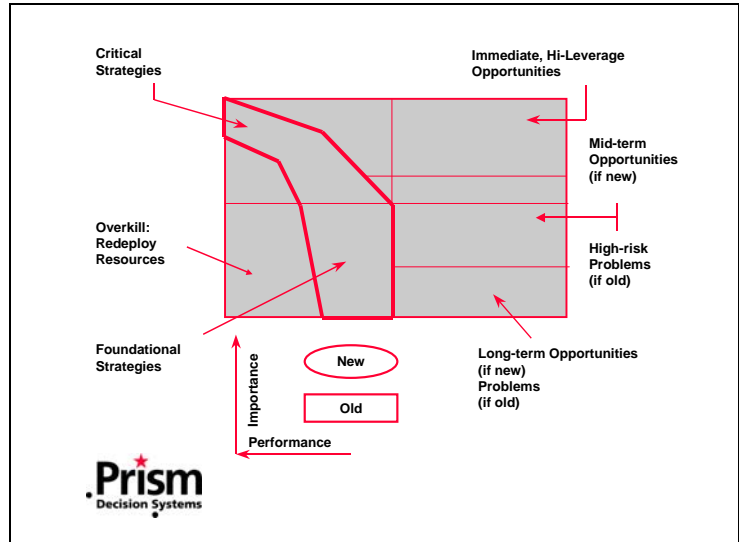

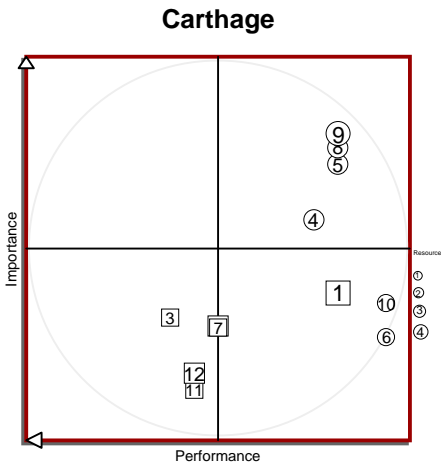

**Literacy (9):** Institute or expand a comprehensive reading and literacy program throughout the pre-K to 12 curriculum.

**Mentoring (10):** Implement a mentoring program targeting at-risk students across all grade levels.

**Professional development (11):** Provide quality professional development related to the social, emotional and academic needs of at-risk students.

**Social services (12):** Increase effective school, community and agency partnerships to address the social and emotional needs that prevent student success.
